## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 24 and 26 - 44 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Cham was the closest reference to the claimed subject matter. Cham, as the applicant notes, was focused on mosaicing multiple images together. Cham used similar steps as those claimed in the application; however, Cham does not deal with non-rigid motion of bodies (which the applicant now claims). Nor does Cham teach recalculating probabilities of candidate movements based on stored probabilities of adjacent sampling points. Therefore the newly amended claims overcome Cham, and is thus allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
